Exam Roll No

END TERM EXAMINATION

Third SEMESTER (BBA) January-2024

Paper Code: BBA-217

Subject: Environmental Studies

BBA(B&I)-215

BBA(CAM)-213

Time: 3 Hours

Maximum Marks: 75

Note: Attempt five questions in all including Q. no. 1 which is compulsory. All questions carry equal marks.

- Q1 Answer **any five** from the following:
- a) Define the term "mitigation" in the context of disaster management.
 - b) Explain the concept of solid waste management.
 - c) Define the Name of two natural disasters and two human-made disasters.
 - d) Explain the impact of plastic pollution on marine life?
 - e) Define the term "carbon footprint" and its relevance to sustainable development.
 - f) What is the status of the ozone layer today, and are there any recent incidents of ozone holes?
 - g) What is the key purpose of the Chemical Weapons Convention?
 - h) What is the primary aim of the Montreal Protocol?
- Q2 Examine the ethical considerations in sustainable development. How can decision-makers balance the needs of the present without compromising the ability of future generations to meet their own needs?
- Q3 Discuss the major sources of air pollution and their impact on human health. What long-term strategies can be implemented to improve air quality on a global scale?
- Q4 Evaluate the effectiveness of policies and regulations in addressing environmental pollution. How can governments enhance enforcement mechanisms and promote compliance for long-term environmental protection?
- Q5 How successful has the Kyoto Protocol been in achieving its emission reduction targets, and what lessons have been learned for future international climate agreements?
- Q6 Evaluate the challenges and opportunities associated with managing human-made disasters, such as industrial accidents or technological failures. How can these risks be minimized in the long term?
- Q7 Analyze the challenges faced by developing countries in pursuing sustainable development. How can the international community support these nations in their sustainability efforts?
- Q8 Compare and contrast the long-term sustainability of renewable and non-renewable energy resources. Discuss the environmental, economic, and social impacts of each over time.
